

# ECU<sup>®</sup>

**WATER  
RESOURCES  
CENTER**

## Equipment Grant Application Form

Project Title: \_\_\_\_\_

Briefly describe the type of equipment requested:

Name	Department	Rank/Position
<i>Lead PI (responsible for the acquisition and management of the equipment)</i>		
<i>Co PIs (must have a role in the management and support of the equipment)</i>		
<i>Equipment Users (anyone else who will utilize the equipment note of support required)</i>		

# Equipment Grant Application Form

1. Provide a concise justification for why this request should be supported:

2. Describe ECU's current capabilities and how this equipment will compliment or expand current resources:

# Equipment Grant Application Form

3. How will the equipment increase the potential for publications, grants, and/or educational experiences at ECU:

4. Provide a detailed plan for how the equipment (and/or data generated by the equipment) will be shared and made accessible to the broader WRC community. If sharing of this equipment or data are not possible, a detailed justification must be given.

# Equipment Grant Application Form

**Budget Information** (attached a separate pdf sheet with this detail if needed)

Item	Amount	Justification

**Matching Funds:** List the amount and source of matching funds confirmed for this equipment. Include supporting documentation with your application (e.g., email stating agreement to contribute funds).

**Project Timeline:** Explain the timeline required to acquire and get the equipment online, include milestones.

In addition to these items, you will also need to upload the following with this application form:

- A NSF or NIH style biosketch for the PI and co-PIs
- Documentation of matching funds (if any)
- Notes of support from collaborators stating their intended use of the equipment
- Extra budget/budget justification page (optional)
- Current quotes from vendors for requested equipment (mandatory)
